IRI PRJ-126-2016

The PRJ-126 designed to support camera cover range up to 200m. The PRJ-126 is operational since 2006 and is used for traffic license number identification.

The new 2016 design improve the performance and reduce production costs.

Specifications

LED Array wavelength:	850 nm
Beam Range 850nm:	150-200 m
Viewing angles 2Θ°:	25
Dimensions:	450*290*77 mm
Color:	Gray
Weight:	4 Kg
Protection Standard:	IP66
Optical Configuration:	Groups of 6 high power IR LED with optical lenses, uniform illumination

Environmental:

Operating Temperature, Outdoor Equipment:	-35°C to +50°C.
Operating Humidity, Outdoor Equipment:	5% - 100%
Power Requirements:	110 Watt
Input voltage:	240VAC

Accessories

Mounting bracket
Power cable: 3m
